

Edward German

Many iconic people have been portrayed on bank notes throughout history. for various deserving reasons. For example; Isaac Newton pictured on the £1 note in 1978, Wellington on the £5 note in 1971, Florence Nightingale on the £10 note in 1975, William Shakespeare on the £20 note in 1970 and Christopher Wren in 1981, plus many others.

Edward German was born in Whitchurch, Shropshire. He was a Composer of Light Operatic music. Although music may not be considered as crucial to the survival of people, it is known to lift their spirits. As the saying goes "Let music be the food of love, play on"[William Shakespeare]. I therefore nominate Edward German to be pictured on bank notes. A Musician, for a change.
